Professional Summary

Backend Developer building **scalable REST APIs and event-driven systems** in **Java and Spring Boot**, with production experience in **Spring Security, JPA/Hibernate, Apache Kafka, Spring Cloud, JWT, and Resilience4j**. Brings **SIEM-based threat detection** experience from active security operations work to design security-conscious backend architecture. AWS Certified Cloud Practitioner and Certified Ethical Hacker (CEH v12).

Education

Koneru Lakshmaiah University **2021 – 2025**
Bachelor of Technology in Computer Science *CGPA: 8.85/10*

Experience

Associate Software Engineer **Feb 2026 – Present**
LTM *Hyderabad, Telangana*

- Worked on backend development tasks using **Java** and **Spring Boot**, including basic **REST API** development and maintenance.
- Worked with **SQL** databases, debugging application issues, analyzing logs, and performing basic troubleshooting.
- Used **Git** and **Postman** while participating in code reviews, daily stand-ups, and team collaboration.

Java Full Stack Trainee **January 2025 – Oct 2025**
Student Tribe *Hyderabad, Telangana*

- Independently built backend modules using **Java, Spring Boot, Spring Data JPA, Hibernate, and MySQL**, taking full ownership from design through deployment.
- Developed and tested **RESTful APIs** covering authentication, exception handling, and layered service architecture end-to-end.
- Practiced **OOP principles, Git-based version control, and clean-code standards**, reviewing peer code and joining daily stand-ups to track sprint deliverables.

Projects

Skillora – Professional Networking Platform | *Java, Spring Boot, Kafka, Microservices* | GitHub **2025**

- Built **6 Spring Boot microservices** using **Spring Cloud Gateway, Netflix Eureka, and JWT**, supporting **1,000+ requests/min**.
- Implemented **Apache Kafka event-driven architecture** achieving **5,000 events/sec** throughput and reducing notification latency from **3s to 500ms**.
- Implemented **Resilience4j Circuit Breaker, Zipkin distributed tracing, and ELK Stack** for fault tolerance, monitoring, and centralized logging.

BookingBlock – Hotel Booking Platform | *Java, Spring Boot, Stripe, JPA* | GitHub **2025**

- Developed **8 RESTful APIs** for hotel reservations, supporting **100+ listings** with response times under **150ms**.
- Integrated **Stripe Payment Gateway** processing **200+ transactions** with a **99.5% success rate**.
- Implemented **Decorator Design Pattern** for dynamic pricing and optimized **Hibernate caching**, reducing database calls by **50%**.

Technical Skills

Languages: Java, SQL

Backend Development: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate ORM, REST APIs, JWT, Authentication, Authorization, Exception Handling

Microservices & Distributed Systems: Spring Cloud Gateway, Netflix Eureka, OpenFeign, Apache Kafka, Event-Driven Architecture, gRPC, Saga Pattern, Resilience4j, Circuit Breaker, Zipkin, Distributed Tracing, ELK Stack

Databases: MySQL, PostgreSQL, MongoDB, Redis, Flyway, Database Optimization

Security & Monitoring: Microsoft Sentinel (SIEM), KQL, Threat Detection, Incident Response, Log Analysis

Testing & Tools: JUnit, Mockito, Postman, REST API Testing, Git, GitHub, Maven, Docker

Certifications

- **AWS Certified Cloud Practitioner** – Amazon Web Services
- **Certified Ethical Hacker (CEH) v12** – EC-Council

Achievements

- Graduated with **8.85/10 CGPA** in Computer Science from Koneru Lakshmaiah University.
- Self-directed study of **agentic AI systems, LLM mechanics, and RAG pipeline architecture** using Spring AI, pgvector, and Ollama.
